premierpodiatryservices.com

Premier Podiatry understands the importance of quality podiatry treatment in the home.

Premier Podiatry understands the importance of excellent podiatry treatment in the home. That's because we have a track record of doing so for more than 25 years. Dr. Thomas Paholak established Premier Podiatry in Chicago in 1993 and built the practice with an emphasis on making home podiatry care its core priority. It remains a successful practice with devoted and satisfied patients and families that rely on his care and guidance to this day. He is now bringing this focus on patient care to his home town. He was born and raised in Berkley, MI, and has returned home to provide house calls across the Detroit area and surrounding suburbs. House calls are his expertise, serving many of our older family members who are homebound and/or living with a family member. It's about getting patients on their feet fast.

BEFORE

AFTER

Just a few examples of our services include toenail debridement, diabetic foot care and wound care ... and it's all taken care of in the home. Please call us to get more information regarding outstanding podiatry services and care your patients will be extremely satisfied with.

We effectively treat the following:

- Diabetic ulcers
- Neuropathic ulcers
- Pressure ulcers
- Ischemic ulcers
- Venous ulcers
- Chronic, non-healing wounds
